Editors' Note

The 9th International Conference on Head-driven Phrase Structure Grammar (2002) was held at Kyung Hee University, Seoul in Korea. The conference featured three invited talks and 22 papers (18 in presentations and 4 in poster sessions), selected by the program committee. The proceedings include all the papers except those by Robert Borsley, Gunter Neumann and Dan Flickinger, and Marianne Desmets.

Stephen Wechsler was the program chair, and would like to thank the members of the program committee: Olivier Bonami, Chan Chung, Takao Gunji, Andreas Kathol, Jong-Bok Kim, Louise McNally, Tsuneko Nakazawa, Carl Pollard, Frank Richter, Ivan Sag, Peter Sells, Melanie Siegel, and Eun-Jung Yoo. In charge of local arrangements were Byung-Soo Park and Jong-Bok Kim, and they would like to thank the Linguistic Society of Korea and the whole helping group from the School of English for their logistic assistance, both during the conference and during the preceding 2002 Linguistic Society of Korea International Conference.

As has been customary in the past, the program chair and the local organizer(s) are responsible for making the work presented at the conference available to a wider audience. In order to do this as fast as possible we have chosen an unrefereed electronic format.
